

Amikacin 250mg Injection

Amikacin 250mg Injection is a trusted antibiotic widely used for treating severe bacterial infections. It belongs to the aminoglycoside class of antibiotics, which work by inhibiting bacterial protein synthesis, thus effectively controlling infection. This injection is often prescribed for conditions like respiratory infections, urinary tract infections, and sepsis.

Greycross Healthcare is proud to provide high-quality Amikacin 250mg Injection, ensuring safety, efficacy, and affordability. This medication is formulated with precision to meet global healthcare standards, offering dependable results for medical professionals and patients alike.
